Python® delivers the ultimate auto security value and performance by integrating high-technology and state-of-the-art microprocessor circuitry to produce exceptional remote controlled vehicle security systems that are as easy to use as they are affordable.

### Python - Products

The Python 1401 has a new accessory harness and an extra auxillary output which will not be in the Viper's instructions but it is easy enough to sort out what goes where. You should be able to install and program the unit using the supplied install sheet if you have had some experience with alarms. Operation is great.
