So if you're looking for the best stereo amplifier at the cheapest price, this Cambridge model's a great option. At around \$350, it's big on value, big on sound and built to last. The sleek, 8cm-high case is equipped with a built-in moving magnet phono stage (worth using if you have a budget turntable), a 6.35mm headphone output and 3.5mm

If you have a good pair of speakers or headphones already, all you need is a stereo amplifier these days (for most people at least). Modern home stereo amplifiers include all the things I mentioned above, and much more. Still, in the world of high-quality audio gear, things can get quite expensive, and I
