Strategy is made of such seemingly self-contradictory propositions. Edward Luttwak shows—they exemplify the paradoxical logic that pervades the entire realm of conflict. In this widely acclaimed work, now revised and expanded, Luttwak unveils the peculiar logic of strategy level by level, from grand strategy down to combat tactics.

**Strategy: The Logic of War and Peace, Revised and Enlarged ...**  
Luttwak defines strategy as "the conduct and consequences of human relations in the context of actual or possible armed conflict." He maintains that strategy is unique in its paradoxical logic, a reality illustrated by the old axiom that if one desires peace, then one should prepare for war.

**Strategy: The Logic of War and Peace by Edward N. Luttwak**  
This book expounds a new way of thinking about the conduct of war and the diplomacy of peace, a theory Luttwak calls "paradoxical logic," and illustrates, through abundant historical examples,...

**Strategy: The Logic of War and Peace - ResearchGate**  
Because war is the only way to lead to peace. Strategy is governed by the paradoxical logic where everything turns into its opposite. War brings peace by literally burning, destroying the resources needed to make war to some extent; much more importantly, by destroying the hopes, the ambitions, the expectations that drive war.
